*“What really sets Zegarra LLC apart is its **in-depth knowledge** of the Peruvian tax system as applied to mining, but above all, **its practical approach**. As a foreign company working in the mining sector, we really appreciate that the team understands both the regulations and the real context in which the rules apply.”*

*“**Evelyn and Juan Carlos** have a **personalised approach** and see their clients' business as if it were their own. **This makes a big difference.**”*
